

Station Power Warranty

Staticon guarantees that each unit or system of equipment of its manufacture is free from defects in materials and workmanship for:

The lesser of 2 years from date of start-up, or 2.5 years from date of shipment ...	Comprehensive
3 years after expiry of full warranty on Staticon magnetic, power and control modules ...	Components
2 years on spare and replacement Staticon modules and components ...	Spare Parts

This warranty is in effect provided the equipment is used for the purposes intended and is handled, stored, installed, connected, operated, and maintained in accordance with the equipment instructions. Warranty services are limited to the correction of defects by repair to, or the provision of replacement components and modules for, equipment on an FCA Staticon factory basis.

This warranty is void if: equipment was subjected to misuse, negligence, or accident; seals are broken; equipment has been incorrectly installed or connected; or modules, components, or connections have been incorrectly altered or substituted. This Warranty supersedes all other warranties and obligations, expressed or implied, unless otherwise documented by Staticon.

Warranty validity will be determined by Staticon service / test personnel at time of job-specific equipment and / or component defect assessment.
